IKEA FALSTER

IKEA FALSTER is outdoor furnitures one of the most famous series of super brand IKEA.

We decide to model it and to share those models for free. We did 3d modeling and texturing in couple of weeks and also we render out some nice renders and animation that soon will be uploaded too. Models are high detailed with high resolution textures that you will find in the zip files . They are modeled in 3ds Max studio and textured with v-ray materials . Feel free to use them for whatever purpose you need they are totally free for use .
